REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

Examiner finds Applicants' arguments on page 7 of the "Amendment Under Rule 116" filed on 1 May 2006 concerning a method of generating kernel audit data persuasive as applied to amended independent claim 1. The combinations of prior art from Crosbie et al. (U.S. Patent Application Publications No. US 2002/0083343) neither renders obvious nor anticipates the combination of recited elements in light of claim 1. In particular, the above cited references neither renders obvious nor anticipates the combination of recited elements in the limitation "wherein the audit record is a tokenized audit record and tokens of the tokenized audit record are either primitive or composed".

6. No combination of prior art renders obvious or anticipates the combination of recited elements in amended independent claim 23 in the limitation "auditing of the system should continue as specified in a post-call selection flag".

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
